Introduction

The Department for Employee Insurance (DEI) is pleased to provide an analysis of the Kentucky Employees Health Plan. In response to requests for data analysis this report has been prepared to provide information related to enrollment, claims payment, and utilization.

It is the Department's intent to update this information on a monthly basis in an effort to continue to provide current information about Kentucky's Health Insurance Program.

Overview

This report is compiled using Medstat, which is DEI's health insurance information management system. Medstat warehouses enrollment and claims data. Enrollment data is provided by DEI while claims data is provided by each carrier and/or TPA.

Claims information may be analyzed by either "incurred" or "paid" dates. "Incurred" reports specify paid amounts for claims that were incurred in a specified timeframe. Due to the lag time in submittal and payment of claims, historical reports that are based on incurred claims may change significantly with each new database update since additional incurred claims will be added. "Paid" claims reports specify the paid amount for claims regardless of when the claims may have been incurred. Unless otherwise specified, data contained in this report are based on "incurred" claims.

Enrollment in the KEHP changes on a daily basis due to a variety of reasons such as: new hires, adding dependents, dropping dependents, marriage, divorce, becoming Medicare eligible, etc. Therefore, Medstat is dealing with a fluid enrollment base. Also, each carrier processes claims slightly differently. During 2005 Medstat processed enrollment information for a total of 253,984 members as well as 7,196,140 claims (3,083,368 Medical claims and 4,048,855 prescriptions) from five different carriers. When dealing with such large numbers it is impossible to tag every claim to a corresponding group, carrier, service type, etc. While the tagging rate for the KEHP data exceeds 99%, you may still see information on reports stated as "~Missing". This indicates any enrollment or claims that could not be "tagged" by Medstat.

Definitions

DEI utilized the following definitions in preparing reports:

- “Employee” represents an individual eligible to participate in KEHP as a retiree in either KTRS or KRS, or by being employed by one of the agencies that participate with KEHP (example: state employee, school boards, Quasi agency, etc.). Employee may also be referred to as “planholder” or “contracts”. Please note that Medstat deals with Cross-reference plans uniquely. Although there are in fact two “employees” Medstat can only designate the planholder as an employee. Therefore, the cross-referenced spouse is considered a dependent and all claims and utilization data related to them is counted as a “member”.
- “Member” includes all employees plus any dependents that are covered through the KEHP. Members may also be referred to as “covered lives”.
- “Group” is Kentucky Retirement System (KRS), Kentucky Teachers Retirement System (KTRS), State Employees, School Boards, or Other (includes: COBRA, Health Departments, KCTCS, Quasi/Local Governments).
- “Plan” is Commonwealth Essential, Commonwealth Enhanced, Commonwealth Premier, HMO Option A, HMO Option B, POS Option A, POS Option B, PPO Option A, PPO Option B, or EPO Option C.
- “Carrier” may be Aetna, Anthem, Bluegrass Family Health, CHA Health, United Healthcare, or Humana (please note that Express Scripts data is designated as Humana).
- “Generic Efficiency” means the number of prescriptions that are filled with a generic product as a percentage of the total number of prescriptions where a generic is available.
- “OOP” is the amount paid out-of-pocket by the member for facility, professional, and prescription drug services. This generally includes coinsurance, co-payment, and deductible amounts.
- “Allowed Amount” is the amount of submitted charges eligible for payment for all claims. It is the amount eligible after applying pricing guidelines, but before deducting third party, co-payment, coinsurance, or deductible amounts.
- “Net Payment” is the net amount paid for all claims. It represents the amount after all pricing guidelines have been applied, and all third party, co-payment, coinsurance, and deductible amounts have been subtracted.
- “Patients” is the unique count of members who received facility, professional, or pharmacy services.
- “Days Supply” is the number of days for which drugs were supplied for prescriptions filled. It represents the number of days of drug therapy covered by a prescription.
- “Mail Order” is computed as any script filled with a “days supply” of more than 30 days, regardless of the physical location where the prescription was filled.
- “Retail” is computed as any script filled with a “days supply” of 30 days or less, regardless of the physical location where the prescription was filled.

Enrollment

The following details planholder enrollment (contracts) for 2004, 2005, and monthly year-to-date for 2006. Enrollment will fluctuate on a monthly basis. (Note: There have been approximately 7,000 cross-referenced spouses in any given month that are not included in the following chart.)

The following details member enrollment (covered lives) for 2004, 2005, and monthly year-to-date for 2006. Enrollment will fluctuate on a monthly basis.

The following shows the number of cross-reference spouses for 2004, 2005, and monthly year-to-date for 2006. Number of Cross-Reference Spouses will fluctuate on a monthly basis.
